Experience The Magic At Home

Welcome. Our promise to you is a simple one. We will enhance your lifestyle by transforming your home into a fun and exciting place to live, work and play.

Our goal is to provide you the dream of a lifetime by designing and installing the most sophisticated home automation and control solution, the finest whole-house entertainment system and a state-of-the-art computer network system.

Whether you are building a new home or simply remodeling an existing one, we will design and install a completely customized system to match your personal needs.

From initial design to finished construction, you can count on us to work closely with your builder, architect and interior designer to create your perfect home.

Watch Movies, Play Video Games or Display Photos in Any Room

Experience entertainment from all video sources everywhere in the house. Each stream can be distributed to any room and simultaneously viewed. Control all sources by using a remote control or touch panel. Our designs feature rich, crystal clear sound and widescreen displays.

Listen To Pleasant Music Everywhere in Your Home

Now you can enjoy beautiful sounds in every room you desire. If you wish to maintain the decor, we will discreetly hide the speakers in the walls or ceiling. We'll design your system so that anyone can simultaneously listen to their favorite music in any room. Take it a step further and expand your music system throughout the yard.

Add A Computer System Network Throughout Your Home

Imagine the convenience of a home computer networking system that enables high-speed data networks and communication lines of today's technology. Your home can be networked for a secure and reliable system.

Enjoy Your Home Theater & Media Center

Feel the excitement of a blockbuster movie in your private home theater. With the push of a single button, your movie will begin to play. Our theaters are designed with enhanced acoustics, seating, lighting and visual projection.

Control Your Entire Home With Ease

Our integrated systems are designed so that you can operate almost every electronic device in your home. Through simple-to-use touch screens and hand-held remote controls, our various systems will allow you to control your home, even while away.

Add Ambiance through Lighting

Lighting enhances the mood in the home, creating the setting for all activities. Adjust the lighting for a romantic dinner or set the lights to slowly dim when it's the kids bedtime.

Keep Watch On Your Children

Protect your family and guests with our discreetly hidden cameras that blend into the décor of your home. Check on the kids or see who's at the door by simply viewing your television, computer monitor or PDA.
